#### **Investment Performance**

As Plan members have differing risk preferences, the Plan makes several investment options available to members. These options allow members to select segregated funds with a mix of underlying assets that meets their investment needs.

**Members are reminded of their responsibility to review periodically the portfolio structure of their participation in the Plan and to revise it as appropriate given their needs.**

The investment risk profile, provided on the Sun Life member website (mysunlife.ca), helps to determine the type of investor you are, and provides information to help you understand risk, the benefits of diversification and develop an investment mix to match your goals.
